Note: Only students enrolled in courses coded as distance delivered in BANNER are included in this table. A student's home Campus is the campus that owns the student's degree program, in the case of degree seeking status, or is the original campus at which the student entered the university in the case of non-degree seeking status. 'Total Home Campus Headcount' may be less than the row sum since it is common for students to enroll at more than one campus in a semester. Fifteen students enrolled in a Juneau degree program took one or more distance education courses from the Anchorage campus in fall 2004. Overall, 94% of students taking distance education courses from Anchorage were enrolled in Anchorage degree programs in fall 2004.

Note: For the purpose of this table, student ages were calculated as of October 1st (the federal census date). Reporting level headcount is unduplicated. Campus headcount totals add up to more than MAU totals and MAU headcounts add up to more than the system total. This occurs because it is common for students to be concurrently enrolled at multiple campuses and/or multiple MAUs in the same semester. Therefore, some students would be double counted if headcounts were summed across campuses and MAUs. Headcount includes students who audit credit courses.
